SUMMARY

Full-stack developer with experience in front-end development (JavaScript, React) and back-end development (MongoDB, NodeJS) who has the ability to adapt to self-starting and collaborative environments, while having the capacity to learn and implement new technologies to solve technical challenges.

TECHNICAL SKILLS

Languages: JavaScript, HTML/CSS

Frameworks/Databases: ReactJS, NodeJS, ExpressJS, MongoDB, Bootstrap, MaterialUI

Developer Tools: Git, VS Code

TECHNICAL PROJECTS

Fitness App | *React, MaterialUI, JavaScript* | <https://bit.ly/kel-fitness> June 2022 – June 2022

- Developed a React fitness web application to allow users to search and filter over 1000 exercises by muscle group and equipment
- Utilized MaterialUI to style and create a mobile-friendly and responsive user interface
- Implemented various web APIs that allowed the application to generate a vast number of exercises as well as YouTube video examples

Motherland Travel | *HTML, CSS, Bootstrap* | <https://bit.ly/nwotravel> May 2022 – May 2022

- Developed a demo of a front-end responsive landing page using HTML5/CSS
- Incorporated Bootstrap to produce a modern and responsive design functional across all devices

EXPERIENCE

Student Caller November 2019 – May 2022

University of Toronto *Toronto, ON*

- Contacted over 5000 alumni to build rapport, update demographic information, and acquire gifts for various annual funds
- Raised over \$20,000 in total gifts and pledges for numerous departments and faculties of the university
- Worked with other callers in a team-oriented environment to increase the pledge rate of alumni by 25%
